The proprietors of the Democrat were required to provide an editor who would take the oath of allegiance, and give bonds in \$5,00 not to publish matter in violation of the order issued.

—Jeech G. Vanhorn, of Blackford county, Indiana, was arrested on Monday night by Capt. J. A. Stretch, by order of Gen. Hascall. His offence was disloyalty and attempting to evade the service of writa from the United States Court upon disloyal men. Captain Stretch took him to headquarters for trial. Vanhorn was a leader in his party, and said to be a high officer in the K. G. C's. He makes we secret of witering secondor sentiments, hoping that the South will succeed.

—The Louisrille Jerrael daily countains notices like the following. They show that Gen. Burnside is busy: Wor. Wilson, of Christian county, and W.H. Ladd and Thos. Jones, of Trigg county, will be sent from this place to Bellimore this morning, en route to the limits of the Southern Confederacy, where they are ordered to remain during the war, on penalty of death should they return.

—Gen. Mor, who was killed at Fredericksburg, was a native of New York, to which State he is credited in the army register. His place in the regular service is captain in the Niceteenth Infantry, filling what is called an 'original vasancy,'". His commission daing October 20th, 1881. ENW MARKES SCHOOL.

Mr. Carpenter, From the special committe appointed to investigate the propriaty of etablishing a new branch school in the Newberry district, stated that the committee had nade a personal visit to the district and found handle school now in operation there was undequate to the wants of the people in the sprict. The committee accordingly remmended the immediate establishment of a sich school.

dispret. The commutee accountagy recommended the immediate establishment of a
branch school.

On motion of Mr. Ward, it was decided that
such a school should be opened in a building
named by the committee, which can be had
for that purpose, and that the Board pay twethirds of the teacher's salary.

Mr. Ward, from the Committee on Building and Grounds, reported that they could
procure for the term of one year, as additional building for the use of the Poster School.
Also one for the Washington district; the
first at \$100 per annum, the last at \$00. On
motion, the committee was instructed to secure the above buildings on the terms named.
These mutities also recommended that another
shitting be procured for the use of the Frantim School.

On motion of Mr. Ward, the committee

On motion of Mr. Ward, the committee lately arrested here. The report lacks confirmation.

Seven hundred and sixty Indians, mostly
women and children, arrived here to day from
St. Paul, as reset to Fort Randall, on the Upper Missouri. Large quantities of food and
agricultural implements are being shipped for
their use, on the same boat.

Gen. Vandever has been ordered to Rolla to
assume command of the army of the frontier,
during the temporary absence of Gen. Berron.

saliding be procured for the use of the Franklin School.
On motion of Mr. Ward, the committee
were sutherized to procure snother building
for the Franklin School.
On motion of Mr. Holdes, the Committee
on Furniture and Apparatus were authorized
to furnish a new room for the Newberry
School, whenever they might deem it secusary to do so.
On motion of Mr. Wentworth, the same
Committee were authorized to fit up and furmish the hall in the Brown School house, for
another department.
On motion of Mr. Carpenter, the Superintendent of Public Schools and the Committee
on Buildings and Grounds were instructed to
take some action in reference to securing additional buildings for the use of District No. 12.

BUILDINGS AT BRIDGEFORT.
On motion of Mr. Holden, the Committee
on Buildings and Grownias were instructed to
visit Bridgeport, and take measures for furmishing additional facilities for the school
there.

The Coloned acmout.

The Scretary read a communication from
the City Gnews, setting forth that the Comsen Council, at its season hadd on the 23d or
March, passed a resolution directing the
Board of Education to hire a suitable building or rooms in the South Division, and enploy teachers, for the education of the colored
children in the city.

Mr. Went worth moved that the subject be
laid over till the next regular meeting. This
motion elicited considerable discussion. Mr.
Taft was desirous of having the matter disposed of at once. Mr. Holden also expressed
a similar desire, and thought it doubtful whether there would be as many members of the
Board present at the next regular meeting as
were then convened. Mr. Ryder was in favor
of referring the question to the Committee
on Buildings and Grounds, to report at the
next meeting. Mr. Wentworth here raised
the question of the unconstitutionality of the
measure proposed by the Common Council,
and read to the Board that portion of the
"Black Laws" of Illinois which prohibits
colored persons from becoming residents of
the State. He thought that if it was unconstitutional for colored people to actile in the
State, it would be equally so for the Board to
establish schools for their education. Mr.
Ryder thought the Board had nothing to do
with the constitutionality of the question;
they were amenable to the Common Council,
and not to the Illinois Legislature. The Gov. Brown, of Ga., has vetoed the BiaGaard or sew Militia Bill.
Gaard or with the constitutionality of the question; they were amenable to the Common Gouncil; and not to the Illinois Legislature. The Council had instructed the Board of Education to do a certain set, and if that act was unconstitutional, the Council must bear the responsibility. It was not the business of the Board to spend time in trying to estile size constitutionality of the meaner.

After some further discussion, during which Mr. Wentworth exhibited an assonishing amount of legal lore, and quoted colonaly from From New York.

New Youx, May 8.—Report says that Lord Lyons sent a special messenger to England in the Persis, on Wednesday, with the news of Hooker's defest.

Solomon Kohatan has been re-arrested on the charge of defrauding the Government over \$100,000. It will be remembered he purchased certificates of claims on the Subalstence Department to a heavy amount.

Mr. Wentworth exhibited an astonishing amount of legal love, and quoted coplonaly from the Revised Statute, the vote was taken on his metion to by the question over, with the following result:

YEAD—Mesers. Carpenter, Haven, Wahi, Went-Nave-Mesers. Carpenter, Bolden, Newberry, Ryder, Tall—4.

The median was low ler, Taft.—5.

The motion was lost,

Mr. Holden moved that the question be reterred to the Committee on Buildings and
Brounds, without the power to act, but with
instructions to report at the next regular
meeting of the Board. The motion was carried without opposition.

On motion, the Board then adjourned.

[Prèm Our Own Reporter.]

Journ, May 8, 1868.

The testimony of Mr. Haight, conductor on the Chicago and Rock Island Baliroad accommodation train, was needed by the Court at their extra session has wrening. He testifies that Mrs. White went twice to Chicago on his train; that once her brother accompanied her a portion of the way, that he got on at Joliet with the alteged intention of going to New Lennox, but got off at Mokens. He did not know the young man to be her brother at the time, and was unable to state positively any dates, but that both trips were made some time during the winier.

After considerable discussion, Mrs. Edward Lawrence was permitted to teatify, upon certain conditions, and she ascordingly occupied the attention of the Court this forenon; being semitted upon condition that herication stated by Mrs. Everett as having taken place in the kitchen, after Mr. Hagar's departure, during which Mrs. White defended Mr. Hager, and stated she did not think be onsice a man was a minister he must necessarily be long-faced or stiff, or something to that effect. Mrs. Lawrence having read Mrs. White's evidence, as published, of course testified to the esame sistement, varying it somewhat, by stating that she did not understand the conternation and applying to. Mrs. Hager, but to the clergy in general. This hady's testimony was introduced as rebuttless to that of Mrs. Revert, to whis point, but it did not amount to any very considerable sum. In the afternoon her testimony was read, and received her sanction and signature. Her testimony was anistited upon condition that Mrs. Evereti's evidence as received thus far, he accepted as completed; hence neither a Commission nor the Court will visit Cleyshand, as was before contemplated.

The Court, counsel and reporters breathed reserve he has of the wridence has been heard, and all that now remains is the delivery of the arguments, which will connence on Tractury. The court has consented that the statement of Mr. Hager may be heard, after the arguments are closed a

Dix had ordered an advance on the acuth side of James River, via Suffolk, towards Petersburg, several days since, in pursels of the rebels retreating on the line of the Blackwater; and also that General leve was moving his corps from Yorkwen up the Peninsula toward Richmond, co-operate with General Hooker. It

is also pretty certain, although stories have come here to the contrary that Gen. Stonen and ley were at White House, as late as Wednesday, and they intended to move towards York-new in consequence of information to the feet that Hooker had been repulsed, and consequently they could make their escaps in no other direction. Add to this, the fact that comes from Federal prisoners, who have just returned from Richmond, that gardson having been completely with-drawn to reinforce Lee, and the report of the capture of the Confederate Capital further confirmation before we can rejoice. Our doubts will soon be settled: The report, also, which comes from the same source, that Hocker had again recrossed the Rappahannock, prepared to give Lee another trial, has an air of truth bout it, and we are disposed to believe the sport. If this be true, it greatly strengthme the theory which places Richm our possession. Events thicken, and we may have lively and satisfactory times at once, although a general blueness pervaded

once, although a general chassess pervaded during Thursday and Friday.

We publish from the Richmond papers, liberal extracts from their accounts of the sweeping gallopade of Stoneman's cavalry. It seems to have performed its work admirably. The raid created a great panic in Richmond, and if Stoneman had but known the situation of affairs in this city, he would have doubtless galloped in.

but known the situation of affairs in that city, he would have doubtless galloped in, gobbied up Jeff. Davis and his co-conspi-niors, and safely delivered them to the order of General Dix at Fortress Monroe. We hope the thing has been done notwith-standing.

The information received early Saturday of a great victory by Grant at Port Gibson, Mississippi, is fully confirmed by an official depatch from that gentleman. He also sends another dispatch, that Griersen is doing a hig business in the interior of Miss-issippi.

Salppi.

The reported disaster, from rebel sources, to Col. Straight and his gallant little army we hope may prove untrue. It he penthe rebels, he must have been at least been engaged in more murders, of them ast revolting character. They should be treat-ed as they certainly deserve. It is pretty surely established that any mercy or kindness shown to Indiana, is certainly to be repaid by cruelty to whites, without re-gard to sex or condition.

The GANAL CONVENTION.
The arrangements for the great national anal Convention to be held in this city on convened at the West. It is intended to be a mass meeting of all the friends of the enterprise. The invitations can by the committee are merely intended to call the attention of prominent civilians, literary, military, and business men, jurists and eather leading citizens to the subject, and it possible to secure their presence and influence about, if by accident any one is omitted, don't let him stay away on that account, for he will be most welcome. Of course delegatest from cities, towns, Boards of Trade and other public bodies are desirable, as accuring more unity and efficiency of action. The importance of providing for the protection of the vast commerce of the lake cannot be over-estimated and should secure the influence and it possible the presence of every leading citizen in the
